

# DISCOVER

*Virtual* is the new *Reality*

“What we do” [DiscoVR]

“WE CREATE  
EXTENDED REALITY  
TO DRIVE YOUR  
SALES & MARKETING  
GOALS”

DISCOVR  
Virtual is the new Reality

# “What we do” [reality Experience]

Based on spaces, products and existing reality. We then use the latest photography, video and 360° VR technologies to create immersive virtual tours of physical locations, with many layers of development on top.

Capturing powerful visuals and creating interactive experiences that excite your customers and influence your business.

Virtual is the new Reality

# “What we do” [virtual Experience]

A fully custom corporate metaverse to connect and engage with your audience on your website, webshop, showroom, event & meetingroom...is what we create.

Based on the creation of a unique virtual space, as close as possible to the desired reality or as futuristic as imagination reaches.

We build 3D virtual spaces from scratch using specialized visualization software - without the need for a physical location! Present a fully customized, immersive and interactive online user experience and boost your marketing, branding, sales or customer objectives.

Virtual is the new Reality

# “What we bring” [value proposition]

## **Driving the future**

Our Development team not even aims at being “up-to-date”, but more often than not at being “ahead of its time” ! Being ambitious is one of our success’ roots!

## **Managing your projects with expertise**

From the discovery phase to the delivery one, our project management team ensures that your (virtual) dreams come true!

## **Coding & feeding the planet web**

“It is all about coding”. Yet, more than just “geeking around”, our team is providing cutting-edge communication tools!

## **Capturing reality**

Our on-site team makes sure that our drone & cameras are delivering the highest standards of image quality. It is a demanding work, for sure. But it’s fun work, too!

“Interactive user  
Experience & free movement  
within our models”
